

AIR FORCE INTEGRATED PERSONNEL & PAY SYSTEM (AFIPPS) *Coming 2025*

Starting FY 2025, the Military Personnel Flight will conduct Military Pay processes.

The Air Force Integrated Personnel and Pay System (AFIPPS) is the solution to modernizing the way Airmen and Guardians conduct military pay and Human Resource (HR) processes. AFIPPS will expand the already-existing Military Personnel Data System (MilPDS) platform by incorporating military pay responsibilities and processes to create a true HR ecosystem. AFIPPS is larger than just an IT system; it represents the Personnel Community (A1) and Financial Management (FM) organizational partnership, and the intergration thereof. The AFIPPS solution will provide accurate and timely pay and HR processes (e.g. Leave and Housing Allowance) to the Total Force.

AFIPPS will enable a more timely and accurate delivery of pay, entitlements, allowances and benefits to Regular Air & Space Force military members, including USAFA and ROTC cadets and ANG and AFR components. Retiree pay will not be affected by this system rollout.

Please feel free to contact us if you have any questions or concerns!

CONTACT US

Military Personnel Flight Commander
(229) 257-2244

Flight Chief
(229) 257-1680

23 Flying Tiger Way Bldg. 105
Moody AFB, GA 31699

The 23rd Force Support Squadron Military Personnel Flight (MPF) consists of four sections that provide customer service to the entire base population, consisting of approximately 4,500 Active Duty military and 7,000 dependents and retirees in the surrounding area.
